SUMMARY

GenAI Engineer and Full-Stack Developer with 1.5+ years of experience building agentic AI systems, multi-agent orchestration, and RAG-powered enterprise applications using LLMs and embeddings. Experienced in Generative AI, AI architecture, solution design, LLM integration, and full-stack development with Python, .NET, Angular, N8N, and Azure.

EXPERIENCE

AI Engineer – Architecture Services

Jan 2025 – Present

Xceedance Consulting India Private Limited

Noida, UP

- Drove architecture and technical direction for a **12-member GenAI initiative**, defining solution roadmaps and collaborating with VPs and Solution Architects on technology choices, scalability, edge cases, and enterprise integrations.
- Architected and developed **autonomous and agentic AI systems** for software engineering and enterprise workflows, designing reusable agents, orchestration patterns, tool integrations, and decision-making workflows.
- Designed and implemented **LLM-powered solutions** using **RAG, embeddings, prompt engineering, and prompt chaining**, integrating OpenAI, Azure OpenAI, Anthropic Claude, and Azure AI services across enterprise use cases.
- Designed and developed **full-stack AI applications** using **Python, C#, .NET, Angular, TypeScript, REST APIs, and Azure**, integrating AI capabilities with enterprise applications, data, and business workflows.

SDE Intern

Jun 2023 – Jul 2023

Bright Hint Private Limited (Certificate)

Meerut

- Developed responsive and interactive **React.js** interfaces using reusable components, improving usability and frontend experience.
- Collaborated with design and backend teams to integrate frontend components with existing application services.

PROJECTS

AIxITOPS – Autonomous Multi-Agent AI Platform | *Agentic AI, N8N, RAG, MCP, Azure DevOps, Cosmos*

- Architected and developed a **production autonomous multi-agent platform** for IT operations, using an agentic orchestrator to dynamically route Azure DevOps tickets to specialized agents and automate ticket updates, assignments, and workflow actions.
- Designed a **RAG pipeline exposed through MCP**, using embeddings and historical tickets and known-error data in Cosmos DB to provide contextual knowledge to agents and improve response grounding.

AI-DLC – AI-Driven SDLC Automation Platform

.NET 8, Angular 20, Azure, LLMs, AI Agents

- Architected and developed an **AI-driven SDLC automation platform** using LLMs and agentic workflows to automate software engineering activities from requirements through **Requirement, Design, API, Code, Test Cases and Deployment(IAC) generation**.
- Designed interconnected Microfrontend based AI workflows using **prompt chaining, context optimization, Response API, and AI agents**, enabling inter-phase communication and reducing overall generation time by approximately **70%**.

DC Rate Load Configurator – GenAI & Insurance

Angular 20, .NET 8, Azure Functions, Azure OpenAI

- Built a **GenAI-powered insurance platform** using Azure OpenAI and .NET 8 Azure Functions to analyze Excel sheets and classify columns into context-aware roles based on business rules.

- Developed the end-to-end Angular workflow for **Excel upload, SheetJS parsing, AI classification, manual overrides, validation, and downstream data loading**.

Marine – Broker Portal for Flood Insurance *Angular 19, .NET 8, SQL Server* ([GitHub](#))

- Built a **role-based full-stack insurance portal** using Angular, .NET 8, and SQL Server with authentication, dynamic quote generation, premium calculation, and quote management.
- Developed multi-step workflows, analytics dashboards, search/filtering, PDF exports, document handling, and third-party integrations including EmailJS and Google Maps.

TECHNICAL SKILLS

Languages	C++, C#, Python, JavaScript, TypeScript, HTML, CSS
Backend & APIs	.NET(Azure Function,Web API, MVC), FastAPI, REST APIs, SQL Server
Frontend	Angular, React.js, Tailwind CSS, Bootstrap,UI/UX Designing
AI / GenAI	LLMs, Generative AI, AI Agents, Agentic AI, Autonomous Agents, Multi-Agent Systems, RAG, Embeddings, Prompt Engineering, Prompt Chaining
AI Platforms & Frameworks	LangChain, LangGraph,LangFuse, n8n, MCP,OpenAI, Anthropic Claude, Azure AI Foundry,Open AI Angentic Framework
Cloud & Developer Tools	Microsoft Azure, Azure Functions, Azure Blob Storage, Azure Table Storage, Cosmos DB, Git, GitHub, Visual Studio, VS Code,Pycharm, SSMS, GitHub Copilot, Windsurf

EDUCATION

B.Tech. in Computer Science and Engineering	2021 – 2025
<i>Harcourt Butler Technical University [HBTI]</i>	<i>Kanpur, Uttar Pradesh</i>

ACHIEVEMENTS

- Secured **Global Rank 214** among 27,000+ participants in CodeChef Starters 140 (Division 3).
- Solved **500+ programming and DSA problems** across Coding Ninjas, GeeksforGeeks, and LeetCode ([Profile Link](#)).
- Served as **Student Head of Training and Placement**, leading recruitment initiatives, collaborating with HR teams, and serving as a panel reviewer. ([Link](#))
- Received the **SPOT Award** for outstanding performance and a **Bravo Certificate** for performance at Xceedance.([Link](#))

CERTIFICATIONS

Anthropic Certifications (Link)	Anthropic
Xceedance Excellence & Bravo Certificates (Link)	Xceedance
J.P. Morgan – SWE Virtual Experience (Link)	Forage
Web Dev & JS Training (Web Dev) (JS)	IIT Bombay
